The Choctaws Resisted.
New York, July 13.—A Washington special says: "The Indian agent at Muskogee, I. T., telegraphs that the execution of nine Choctaws has been suspended till August 4th."

Great Horse Dies.
Saginaw, Mich., July 13.—Rofe N., stallion, record 2:23, brother in blood to the famous Nelson, dropped dead on the track at Union Park this morning. He burst a blood vessel. Worth \$10,000.

A Million of Gold Coming.
New York, July 13.—The Evening Post's London special says: Two hundred thousand pounds of gold are engaged for export to America today.

PERSONAL GOSSIP.

The Earl of Derby, like Mr. Gladstone is an enthusiastic tree feller.

Miss S. E. Fuller of New York is the first woman to receive a government contract for engraving.

Miss M. E. Braddon is said to receive \$1,250 for the serial rights of each of the novels that she writes nowadays.

Mr. William Watson, the English poet who recently became insane, is reported to be completely recovered.

Guy de Maupassant is now in what his doctor calls a vegetative state and incapable of connecting two ideas together.

Nat Brigham, who has been appointed United States marshal for Utah, is remembered at Harvard university as the most mellifluous tenor that ever roamed the college yard.

Mary E. Wilkins, with all her literary success, is but a woman. During a recent visit to New York she enthused more over the "big sleeves" than about the big people who feted her.

The present aim of Zola's life is to gain admission to the French academy. He is not discouraged by numerous defeats, remembering that Victor Hugo had to present himself four times before he became one of the 40 "Immortals."

President Dole of Hawaii has found time to write an article on the higher criticism of the Bible for The Mailer.

He is deeply interested in the investigations of modern Biblical scholars and keeps himself well informed on the subject.

General E. Kirby Smith died in debt, "but it was an indebtedness," says General W. H. Jackson of Tennessee, "which was honestly and conscientiously contracted." Half of the money needed to meet the outstanding obligation has already been raised by the general's friends.

STAGE GLINTS.

It is feared that the days of Gounod, the great composer, are numbered.

Isabelle Evesson and Estelle Clayton are said to be the two most beautiful sisters on the stage.

"A Scandal in High Life." Edger Selden's play, which was recently produced in Brooklyn, scored a failure and will probably not go out next year.

Charles Frohman has secured the American rights of "Charley's Aunt," which has been received with almost unprecedented favor in London.

Edward Harrigan will produce a new play dealing with New York life about Oct. 1 at his own theater. Mr. Harrigan is the author of the play, which has not yet been christened.

It is announced that J. M. Hill has retired permanently from theatrical management and that Neil Burgess of "Widow Bedott" and "County Fair" fame has left the stage for good.

Katie Lawrence, a particularly talented London music hall artist, will return to this country next fall, and it is rumored that after an engagement at Tony Pastor's she may head a farce comedy organization of her own.

Harry B. Smith and Reginald de Koven's opera, "The Knickerbockers," was not a very glittering success in New York, and it was withdrawn after a run of one week. It may, however, be tried again later in New York.

EMPEROR WILLIAM

Monarch of Germany is Coming.

GERMAN ARMY BILL PASSES.

Another Ghastly Find in the Chicago Firetrap.

MONEY MARKET GROWING EASIER.

More Confident Feeling Generally Prevailing.

SEVERAL SMALL LONDON FAILURES.

Advances in American Stocks Continue to be Noted.

The Emperor Coming.

BERLIN, July 13.—The first clause of the army bill passed today by 71 majority. This is considered tantamount to the passage of the whole bill.

[This undoubtedly settles the question of the Emperor William coming to the United States to visit the world's fair. If the monarch of Germany comes to the United States he will open the eyes of France by a display of his military prowess, as well as to do honor to the millions of Germans in our country. The visit of the court to America will cost his government half a million and will be the great event of the Columbian year.]

The Chicago Firetrap.

CHICAGO, July 13.—The workmen on the ruins of the cold storage warehouse made another ghastly find this morning. It was that of a human arm, and from a ring on the finger it was identified as that of Ralph Drummond, part of whose remains were taken out yesterday. The total list of fatalities from the fire now number 17, with three or four still unaccounted for. It is now believed the total will not exceed 20 or 25.

The gate receipts at the fair for Sunday will be donated to the relatives of the dead firemen, and the several city theaters will also give benefits for them, so that a handsome sum is sure to be netted. Memorial services will be held at the grounds Sunday.

The Money Market.

LONDON, July 13.—Stocks are quiet, though somewhat improved. American are weak though there are advances. The failure of four small stock brokers are announced.

New York, July 13.—A good buying of stocks this morning caused advances of from 1 to 1 1/2 at opening. A more confident feeling generally prevailed.

Stock Market Firm.

NEW YORK, July 13.—Later in the day the bears made a raid on granger stocks. There was little support and many margins were exhausted, forcing out much long stock and causing nervousness. When the pressure was removed there was a rally 1/2 to 1, but the market became dull. A firm tone continued to the close, however, with further appreciation.

The New Comet.

SAN FRANCISCO, July 12.—Director Holden telegraphs as follows from Lick observatory:

"The comet discovered at Salt Lake city July 8 is easily visible to the naked eye in the northwest soon after dark. It is moving with extreme rapidity to the east and south. It was observed at Lick observatory last night for a determination of its position. It was photographed and its spectrum determined. It has almost the usual comet spectrum, rather brighter than common in the blue region. Until the orbit is computed it can not be said how much brighter this interesting comet will become."

UTAH FOR FREE SILVER.

New Political Party to Down Tammany in New York.

SALT LAKE CITY, July 13.—A monster silver demonstration was held here last night. Resolutions were passed praying congress for enactment of an act repealing the Sherman law and all other laws unfavorable to silver and substitution of a law restoring to silver its former value.

NEW YORK, July 13.—The first blow at the Tammany domination was struck at a meeting of citizens by the Democracy of the seventh assembly district last night, when a permanent organization of a new political party was effected.

IRONTON, O., July 13.—General W. H. Enoch, congressman from this district, was found dead in bed this morning.

BAD RAILROAD SMASHUP.

Suffers by Fire and Cyclone—Stoves and Fire Escapes Wanted.

NEWBURGH, N. Y., July 13.—The West Bound West Shore train ran into an open switch half a mile south of here at noon, and a bad smashup resulted. Four bodies have been taken from the wreck. A large number of badly injured are being taken to the hospital. There are said to be 8 to 10 killed and over a dozen hurt.

A later report says only six or seven are killed, and fifteen or twenty injured. The dead include four unknown women, and a little child.

POMEROY, Ia., July 13.—The cyclone sufferers are badly in need of stoves. A formal appeal was issued today for help in this direction. The committee asks for 100 stoves, old or new.

CHICAGO, July 13.—The national world's fair commission today adopted a report recommending fire escapes be put on the world's fair buildings.

Heat in Chicago.

CHICAGO, July 13.—The weather is excessively hot. Two deaths from sunstroke so far.

Suicide.

PORTLAND, July 13.—Julius Hammer, a carpenter, attempted suicide this afternoon by shooting. He is in a critical condition with a bullet through his lungs. Domestic trouble is assigned as the cause.

New South Wales Cable.

SYDNEY, July 13.—The latest advices from Samoa are to the effect that active hostilities have broken out between the followers of Maitela and Chief Mataafa. Each faction has a camp, two miles from Apia, and skirmishes occasionally occur. The king's force is stronger but the Chief's have the better arms. Both refuse to hold any district neutral.

A TOUGH CIRCUIT CROWD.

A Chehalis Sheriff Takes Them With the Aid of His Gun.

CHEHALIS, Wash., July 11.—Last night one of the film-famers accompanying Sanger & Lent's show beat a German farmer out of \$20 by means of the short-change racket. The German swore out a warrant for his arrest, which was put in the hands of Deputy Sheriff Ed. Barnett to serve. Barnett went to the show train while the outfit was packing up after the performance and arrested his man. As he was leaving with him, employers of the show, headed by the manager, assaulted him together with two other officers, beat him senseless and rescued the prisoner. A free fight with citizens seemed imminent as soon as the affair had attracted attention. At the juncture Sheriff Barnett, accompanied by Deputy Carpenter, arrived on the scene with drawn revolvers and proceeded to search the show train for the short-change sharp. They were unable to find him, but arrested four employees of the show. The manager in the meantime escaped to the hotel and had gone to bed. They hunted him up, got him out of bed and took him with his hired men to the county jail. The five prisoners were charged with assaulting the officers, and were to have a hearing till Wednesday. The show proceeded to Olympia without a manager and several specialty artists. The manager was released on bail this afternoon, furnished on a telegram from the Oregon National bank of Portland.

Highest of all in Leavening Power.—Latest U. S. Gov't Report

Royal Baking Powder

ABSOLUTELY PURE

THE SILVER STRUGGLE.

Address of the Colorado Convention on Bimetallism.

IN RETURN FOR KILLING FORCE BILL

Colorado Asks the South to Help a Free Coinage Act.

DENVER, July 13.—Interest in the silver convention was not in the least abated yesterday and when called to order standing room was not to be had. After the appointment of delegates to the St. Louis and Chicago silver conventions and to the "gold bug" gathering at St. Paul the committee on resolutions presented its report which was unanimously adopted. It is addressed to the people of the United States and says:

"The people of Colorado, standing in the gloom of impending disaster and representing in condition and sentiment the people of Montana, Idaho, Wyoming, Nevada, South Dakota, Utah, Arizona and New Mexico, with reverence for the constitution and unwavering faith, ask your candid consideration of the following facts before you give approval to the destruction of silver as a money and to the final establishment in this country of a single gold standard of value and thus, at one stroke, change all debts to gold debts and inaugurate a never-ending rise of gold and a continued corresponding fall in the price of every commodity. Congress is called to meet in extra session on August 7th. Preceding this call the clauses which struggled for twenty years to overthrow the bi-metallic money standard provided by the constitution, inaugurated a panic which they truthfully charged to the existing silver law, ignoring the fact that there are \$800,000,000 of outstanding legal tender notes commonly called greenbacks, that are equally available with treasury notes issued in payment for silver to draw the gold from the treasury; that the balance of our foreign trade has turned against us, rendering settlement abroad with American gold a necessity and the great bankers of Europe are purchasing gold with which to change the money standard in Austria and to fill the treasury vaults of other monarchial countries. The evident purpose is to create a prejudice against what is known as the silver purchasing act and under this pressure to secure its unconditional repeal.

The success of this scheme is only partial. Presidential patronage, supplemented by the gold press and aggravated by daily circular assaults upon the law by eastern money brokers sent to every commercial body and banking corporation in the country, have possibly won over the house of representatives to it, but even the president admitted that in the senate there is a staunch majority against it. Suddenly the news was flashed beneath the oceans that free coinage in India had been suspended and the market price of silver had fallen within forty-eight hours fully twenty cents an ounce. The Sherman law did not work in the silver producing states. It was forced upon the country against their will. Their constant demand has been that of the agricultural states west and south and the working masses of the whole country. They have not sought to impose upon the country some new financial nostrum and have asked simply the restoration of the coinage laws as they were from the first year of the federal constitution until the furtive repeal in 1873. The Sherman law was a trick by which the restoration was defeated. The charge that bi-metallic demand that sixty cents be made a dollar is a lie. It is a trick of the single standard conspirators that lessened the value of silver. What bi-metallicists do ask and all they ask is the law regulating coinage as it was for seventy-five years of the country's greatest glory shall be restored without adding or expunging a syllable. Bi-metallicists will cheerfully

submit to any legislation that experience will suggest as necessary to make every dollar of the United States equal in intrinsic value to every other bearing its stamp.

"Will you listen to us while we speak in words of sober earnestness of the local effects the unconditional repeal of silver will have? The silver mining states and territories, embracing 1,000,000 square miles of the continent with 2,000,000 Americans inhabiting them, depend pecuniarily upon silver mining for prosperity. This industry is the very heart from which nearly every other industry receives support. The reduction of the price of silver to about 70 cents shut down 99 per cent. of the silver mines of the country and the smelters must in consequence soon follow their example. In Colorado today there are 15,000 idle miners. There will soon be added to this 4000 men from the smelters. Stone quarries are nearly all shut down, railway companies are laying off train crews by the score, foundries are nearly all out of orders, farmers and fruit growers will be barely paid for the cost of sowing their crops and merchants are countermanding orders. The destruction of the silver industry will devastate the country as if swept by a cyclone, reaching from the British possessions to the Mexican border line. We say to you in the most solemn and truthful manner that reliable statistics prove, including but legitimate items in the account, that the silver of Colorado costs by the time it is on the market not less than \$1.29 per ounce. Like gold, some silver is produced for much less than the market value, but the average cost of silver is fully the highest price it ever brought in the market.

"Stop and consider, men of the East, how many millions of your money are invested with us. No calamity can induce us to repudiate a dollar of honest debt. All our assets are at the will of our creditors for their reimbursement, but if by bad congressional legislation through congress you shall wipe out the great industry of the section, around which all others cluster for vigor and profit, the values of our properties will shrink, our business will be destroyed, our towns and cities will be largely depopulated and railroads traversing the western half of the continent will be sent into bankruptcy. Certainly in the face of such unmitigated inflation you can't blame us if we, thus deprived of all, fail to pay all our obligations. You may, it is true, take the country in payment; but after you get it what will you do with it? We will not submit to the destiny of poverty without a struggle. We shall seek to open up new markets and build up our silver industry along new lines and with new and more sympathetic neighbors.

"To the South Colorado appeals with more sore felt words. Two years ago you feared the enactment of a law that threatened to deprive you of self government and turn your election booths over to the tender mercies of federal bayonets on election day. To save you from the outrages of the federal force bill Colorado's two senators, Republicans, defied the edicts of their party causes and defeated what to you was certain humiliation and the horrors of subjection to the electoral will of your former slaves. We saved you then, you can save us now."

Any Time
is the right time
for everybody to
drink
Hires' Root Beer

A temperance drink.

A home-made drink.

A health-giving drink.

A thirst-quenching drink.

A drink that is popular everywhere.

Delicious, Sparkling, Effervescent.

A 25 cent package makes a gallon of this delicious beverage. Don't be deceived by cheap imitations for the sake of larger profit, tell you some other kind is "just as good"—it's false. The imitation is as good as the genuine Hires'.
